# He Sees The Unseen

- Knows the Unknown

- Tells The Untold

Dubbed The "Man With E.S.P." By The Columbus Citizen Journal

What exactly is the Miracles of the Mind, Extra Sensory Perception entertainment? Here's an example. Imagine the looks on your guests' faces when Dr. Rick seemingly reads their minds and uses extra sensory perception often simply called ESP and reveals amazing unknown facts merely thought of. Hear the gasps as he reads off the serial number of a bill that was just removed from someone's wallet or purse. Feel the energy as he divines a word, name or number merely thought of by an audience member moments before.

What is it? Hypnosis, suggestion, word games or something else? You and your audience decide, but it is different

Dr. Rick's use of planned and spontaneous humor is the thread that ties this entertaining and thought provoking performance of controlled suggestion, mentalism, mindreading and ESP together.

Rick Allen has provided entertainment solutions for thousands of organizations and is ready to provide your solutions too. He'll never reveal sensitive information. Dr. Rick uses normal mental abilities we all possess, he has just cultivated his normal senses to what some consider a higher degree. Another unique area of Dr. Rick Allen's talent is his up-close and personal intuitive personality profiles that he can provide tableside to your guests. Often this is the most popular of his performances.

Dr, Rick presents clean comedy, clever conjuring and mind bending mental feats guaranteed to stretch the imagination and entertain the most discerning audience.

**"Total Audience Involvement is  
the Key To A Fun Show"**
